

Foreword

This handbook has been prepared as a guide to obtaining apportioned registration for motor carriers based in California. The instructions in this handbook should provide the basic information needed when preparing annual (renewal) registration, original, and supplemental applications.

This publication conveys the laws, regulations, and policies in effect on the date of printing, which is shown as "Rev 11/2007" on the bottom of each page of the handbook. California laws, IRP regulations, and California Department of Motor Vehicles policies for IRP registration are subject to change at any time and active California IRP registrants may or may not be notified of those changes as they occur.
